SUMMARY

Recent BSIT graduate with a specialization in Mobile and Web Application Development, seeking an entry-level developer position. Quick to adapt to new environments and capable of understanding and contributing to existing codebases. I am willing to learn and contribute to the projects that would drive innovations and to assist team success.

TECHNICAL SKILLS

Programming Languages: JavaScript, Dart, Java, HTML, CSS, PHP
Frameworks/Libraries: React, Flutter, Node.js, Bootstrap
Databases: Firebase, MySQL, MongoDB
Tools/Platforms: Git/GitHub, Figma, Android Studio, VS Code
Other Skills: REST APIs, Responsive Design, Secure Coding, RDBMS

PROFESSIONAL EXPERIENCE

Bit Create IT Solutions Jan 2024 - Aug 2024

- Designed user interfaces using WordPress and developed responsive front-end components with ReactJS during internship.
- Contributed to both UI design with WordPress and front-end development using ReactJS in a real-world web development environment.

EDUCATION

Bachelor of Science in Information Technology Aug 2020 - May 2025
Specializing at Mobile and Web Application
National University - Manila

PROJECTS

RDO Mobile and Web Application
Reactjs, Flutter, MongoDB, Redux, Node.js, Dart, CSS, Bootstrap

Developed a module for submitting research incentive forms, incorporating OTP verification for submission, approval, and rejection processes.

Train Tracker PH
PHP, HTML, Flutter, Dart, Firebase, JavaScript, CSS, Bootstrap

Train Tracker PH is a mobile-based system that uses geolocation plugins like Geolocator to track real-time train and station locations, enhancing commuter navigation and monitoring.
